

State Licensure Requirements:

Miller-Motte College's Pharmacy Technician program prepares graduates to sit for the national certification exam to obtain a Certified Pharmacy Technician (CPhT) certification credential. The Pharmacy Technician program is a Pharmacy Technician Certification Board (PTCB) Recognized Education/Training Program. Eligibility requirements for the CPhT include a passing score on the Pharmacy Technician Certification Exam (PTCE) with PTCB or the ExCPT Certification Exam with the National Healthcare Association (NHA).

The following states currently have no licensure requirement to obtain employment as a pharmacy technician:

Alabama	Missouri	Tennessee
Delaware	New Jersey	Vermont
Georgia	New York	Wisconsin
Hawaii	South Carolina	

The following states require additional post licensure training or employer based on the job training.

Alaska	Illinois	West Virginia
Arkansas	Maine	
Connecticut	Oklahoma	

The school has made the determination as shown below which states accept the CPhT certification credential to fulfill pharmacy technician state licensure requirements and which states do not. The Certified Pharmacy Technician (CPhT) certification credential is recognized as a primary contributing factor to meet the requirements to obtain licensure in:

Arizona	Maryland	Oregon
Colorado	Massachusetts	Pennsylvania
Florida	Mississippi	Rhode Island
Idaho	Montana	South Dakota
Indiana	Nebraska	Texas
Iowa	Nevada	Utah
Kansas	New Hampshire	Virginia
Kentucky	New Mexico	Washington
Louisiana	North Carolina	Wyoming

Miller-Motte College in Chattanooga fulfills the requirements for licensure by the Florida Board of Pharmacy for the Pharmacy Technician training program (License RTTP1198).

The Certified Pharmacy Technician (CPhT) certification credential is NOT recognized as a primary contributing factor to meet the requirements to obtain licensure in:

California*	North Dakota
Michigan	Ohio
Minnesota	

As a result, we do not enroll students in the Pharmacy Technician program who are looking to pursue licensure in these states.

**While the CPhT certification credential meets the requirements to obtain licensure in California, individuals located in California are not permitted to enroll in online programs at Miller-Motte College.*

The states listed above may not accept the CPhT certification credential and/or may require completion of a state specific board-approved pharmacy technician training program, a program accredited by a specific accrediting agency or training under the direction of a state-specific licensed pharmacist prior to obtaining a state license.
